CG/CN/CNRBKL/Print Contract Backlog Report

Deltek Defect Tracking Number:

954959

Issues Resolved:

Description: The following updates have been made to Print Contract Backlog Report:

- This application now includes contracts based on the contract statuses marked for inclusion on the Manage Contract Status screen. If the status in Manage Contract Status has the Include in Contract Backlog check box selected, contracts with that status will be included in the report.
- A Total line has been added at the bottom of the report.
- A new column, Remaining Value, has also been added to the report. This is calculated as Contract Value or Funded Value less Total Target Revenue or Total Actual Revenue. A new drop-down list, Value Type, is now available on this screen to allow you to display either Funded or Contract values in the report. The default is Funded.

Customers Impacted: This change affects you if you use Print Contract Backlog Report in Costpoint.
