

Deltak Costpoint HotFix Readme

Released: May 30, 2017

Reset Starting Paycheck and Payment Advice Numbers

When printing checks/payment advices for the same pay cycle one-by-one, the check/advice number was not being updated appropriately. For example, if you printed check 73 for employee XXXX, then printed a check for employee YYYY, the starting check number was not incremented. To address this issue, you now have the option to update the starting check number if necessary. For this functionality, the Print Paychecks (PRPPCHK) and the Print Payment Advices (PRPPPAF) screens now contain a new **Refresh** button that updates starting check/advice number.

Patch Requirements

These enhancements require Costpoint 7.1.1 PATCH3174.

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application File
People	Payroll	PRPPCHK	Print Paychecks	cp711_prppchk_011.zip
People	Payroll	PRPPPAF	Print Payment Advices	cp711_prpppaf_008.zip

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
