Hot Fix: cp711_inpreord_001.zip

MATERIALS/INVENTORY/INPREORD/Print Inventory Reorder Report

Deltek Defect Tracking Number:

465431

Issues Resolved:

Description: Reorder for a part should apply only to projects that have been specified on the Project Requirements subtask. However, the reorder report generated by the Print Inventory Reorder Report application incorrectly included part quantities, based on the existence of an inventory row. This occurred even though there was Part Project row.

Customers Impacted: This affects Costpoint users who use **Planning** reorder types.

Workaround Before Fix: None.

Additional Notes: None.
