MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

473374

Issues Resolved:

Description: If you unselected the **Allow additional charging** check box on the Production Control Settings application, and you then reset the manufacturing order (MO) **Status** to **In Shop** on the Enter Manufacturing Order Reliefs, Costpoint did not reset the **Allow additional charging** option to selected, which was the default option.

Customers Impacted: This affects Production Control module users in Costpoint 7.1.1.

Workaround Before Fix: Change the **Allow additional charging** check box manually.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

480908

Issues Resolved:

Description: When you manually added a new lined and clicked **Autoload** on the Serial/Lot subtask of the Enter Manufacturing Order Reliefs application, Costpoint assigned the next lot number based on the last pre-assigned number on the screen instead of based on the options indicated on the Configure Serial/Lot Settings screen. This updated the the **Last Lot Number** information on the Configure Serial/Lot settings screen, resulting in duplicate lot numbers in subsequent serial/lot assignments.

This occurred under the following conditions:

- The MO relief contained multiple lot rows; and
- You manually added a new line; and
- You clicked **Autoload** to populate the rows.

Customers Impacted: This affects Costpoint users who use pre-assigned lot numbers.

Workaround Before Fix: Instead of clicking **Autoload**, enter the pre-assigned lot numbers manually.

Additional Notes: Affects lot-tracked records only. Serial-tracked records are not affected by this defect.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

482084

Issues Resolved:

Description: Costpoint included the **Post Sequence Number** field information when you cloned or copied an existing transaction to create a new transaction.

Customers Impacted: This affects Production Control module users in Costpoint 7.1.1.

Workaround Before Fix: Do not clone or copy transactions in an active posting.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.

5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
