Hot Fix: cp711_te_tmmtimesheet_approve_011.zip

10.0/Time/TM/TMMTIMESHEET_APPROVE

Deltek Defect Tracking Number:

918086

Issues Resolved:

Description: The PLC defaulted on the timesheet, even when a project did not contain any linked PLCs. This has been corrected.

You can now configure the PLC as not required if a project does not contain any linked PLCs. Previously, the PLC defaulted on the timesheet, even when it was not configured as required in Configuration » Master Data » Manage Project. When General Configuration is set to use Link27:

- When the UDT07 Required checkbox in Manage Project is not selected, and no Direct or Wildcard links exist, the charge on the TS line will be validated for the presence of the UDT07 and return an error if one exists

Exceptions that can occur in Manage Timesheets and Approve Timesheet applications:

- If the PLC is present in the charge from charge tree or favorites, it will default but not be validated.
- If the PLC defaults from Employee history, it will not be validated
- If Link17 is enabled in enabled General configuration, the validation will enabled on the link17, and it will be required even if the Link27 is not used, which is uncommon.

Customers Impacted: This update affects Time module customers.

Workaround Before Fix: None

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
