

# Deltak Costpoint HotFix Readme

*Released: May 21, 2015*

## Enhancements

### Manage Position Requisition Approvers (HPMREQA)

The following updates were applied to the Manage Position Requisition Approvers screen:

- A new column, Apply to Lower Levels, was added to the Manage Position Requisition Approvers screen. Select this check box to allow the specified Approver to approve requisitions entered for the corresponding accounting Organization and its lower levels. For example, if you select this checkbox, specify an Approver of **EMPL\_001** and an Organization of **1**, then Approver **EMPL\_001** can approve requisition entered for accounting Organization 1 and any of its lower levels. If you do not select the check box, the eligibility to approve does not automatically extend to the lower levels of the specified Organization.
- Updated the application by removing Organizational Security. To allow you to apply approval abilities to lower levels of an organization in the Manage Position Requisition Approvers screen, organizational security could no longer be applied in this application.

### Costpoint 7.1.1 Patch 2658

A new **H\_RQ\_APPRVR.ORG\_LOWER\_LVL\_FL** column was added to hold the value for the new **Apply to Lower Levels** check box in the Manage Position Requisition Approvers screen.

More information about this release is on the following page.

## Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

## To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

## To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

## To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

## More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
