## Overview

Welcome to the Deltek Time & Expense version 10.0 Cumulative Update Release Notes. These release notes contain a summary of the following:

- Known Issues
- Enhancements
- Software Defects Corrected

## Continuous Delivery Model

With this release, Budgeting & Planning has moved to a "Continuous Delivery Model" where we will release new features and enhancements incrementally on top of Budgeting & Planning 7.0 without requiring customers to upgrade to a major, minor or maintenance release as often.

New enhancements will be made available through DSM after development and testing are complete. These software changes can be applied in the same way that hot fixes, cumulative updates, and regulatory updates are currently applied, through a combination of system jar and application level changes.

Some features may require a new license, some may be enabled through a control/configuration setting, and others, such as an increase to a field size in the database, will be available once the changes are applied.

For more information on the Costpoint Continuous Delivery model you may refer to KB article # 81289, or also see [DeltekCostpoint711ContinuousDeliveryModelWhitePaper.pdf](#), available from DSM.

## Regarding Defect Workarounds

The software correction descriptions in this document include workaround information. This information was included to help customers installing the correction as a hot fix determine whether to deploy the correction or use the workaround instead.

Since you are receiving the correction as part of a cumulative release, all fixes are automatically installed and therefore workarounds are not an option. However, this information is included for customers who previously deployed the workarounds, both to notify them that these workarounds are no longer necessary, and to provide background information about the defect repairs.

## For Additional Information

### Customer Care Connect Site

The Deltek Customer Care Connect site is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Customer Care Connect site provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Connect Customer Forums
- Access Cloud specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Use Quick Chat to submit a question to a Customer Care analyst online

For more information regarding Deltek Customer Care Connect, refer to the online help available from the Web site.

---

### Access Customer Care Connect

To access the Customer Care Connect site, complete the following steps:

1. Go to <http://support.deltek.com>.
2. Enter your Customer Care Connect **Username** and Password.
3. Click Log In.

If you forget your username or password, you can click the **Account Assistance** button on the login screen for help.

---

## Cumulative Update 10 (General Availability)

Cumulative Update 10 marks the General Availability release of Time & Expense 10.0. See the [Delttek Time & Expense Version 10.0 \(CU 10\) General Availability Release Notes](#) for detailed information about all the changes included in the version 10.0 release.

### Enhancements

If you installed version Time & Expense 10.0 during the Limited Availability Release period, the enhancements described below are new for CU 10.

### Changes to Configure General Settings

An **Authentication Mode** field was added to the General Options tab of the **Configuration >> General Configuration Settings** screen. Use this field to select the default authentication method for users when they are granted access to Time & Expense. Options include:

- Database
- Single Sign-on
- Active Directory
- Single Sign-On or Active Directory
- Single Sign-On or Database
- Windows Domain and Active Directory
- Windows Domain and Database
- Certificate SSO

Note that if you select **Database**, the Email field on the **Configuration >> Resources >> Manage Resource Information** screen must contain a valid email address.

### Software Defects Corrected

This release contained no customer-reported defects.

## Cumulative Update 01-09

Cumulative updates 01-09 were released during the Limited Availability period. Enhancements and defect corrections that occurred during Limited Availability are included when you install the General Availability release (CU 10). See “Cumulative Update 10” on page 3 for more information.

Deltek is the leading global provider of enterprise software and information solutions for professional services firms, government contractors, and government agencies.
