## 2018 February Tax Table Updates

This Costpoint release contains enhancements to support updates to State tax tables.

### Oregon

Oregon revised its withholding tax formulas effective February 1, 2018. The following are the tax updates for Oregon:

- The federal tax adjustment amount increases from $6,550 to **$6,650** for an employee with annual wages up to $50,000.

- The federal tax adjustment phase out amounts changed in 2018 for an employee with annual wages of 50,000 or greater.

- The tax table changed for an employee with annual wages up to $50,000.

- The tax table changed for an employee with annual wages of $50,000 or greater.

- The allowance amount increases from $197 to **$201**.

- The standard deduction amount increases from $2,175 to **$2,215** for an employee filing "Single" with fewer than 3 allowances.

- The standard deduction amount increases from $4,350 to **$4,435** for an employee filing "Single" with more than 3 allowances.

- The standard deduction amount increases from $4,350 to **$4,435** for an employee filing "Married."

### Virgin Islands

The following are the tax updates for Virgin Islands.

- The unemployment-taxable wage increases from $23,500 to **$24,200**.

- State tax tables were updated based from 2018 Federal tax tables.

## Patch Requirements

These enhancements require Costpoint 7.1.1 PATCH3385.

## IMPORTANT ANNOUNCEMENTS

### Versions 7.0.1 and 7.1.1 - Calendar Year End 2018

In an effort to allow adequate time to prepare for future year-end system jar requirements, please be aware that you must have the following System JARs loaded before the Calendar Year End 2018 release which is scheduled for December 2018. ***Appropriate action should be taken throughout the next months to plan for this System JAR requirement.***

Anticipated Calendar Year End 2018 System JAR Requirements

- Costpoint 7.0.1: System JAR 049 (released April 2017)

- Costpoint 7.1.1: System JAR 028 (released April 2017)

Both System JARs introduced a much needed change to the State Filing Statuses in Costpoint. Rather than using filing statuses that only applied to Costpoint (Both, Miscellaneous 1, Miscellaneous 2, etc.) and had to be manually mapped to each state's actual filing statuses, Costpoint 7.0.1 and 7.1.1 have been updated to use each state's actual filing status(es). Though the new filing statuses were introduced in

April 2017, Deltek will continue to support tax table updates based on the original state filing statuses for the remaining 2018 tax updates. Any tax updates for 2019 will only support the new state filing statuses that were introduced in System JAR 049 for 7.0.1 and System JAR 028 for 7.1.1 (both released in April 2017).

## Version 7.1.1 – Further Reductions in the Need to Release Regulatory Updates within System JARs

We are happy to announce that we have made several programming changes within the past year to limit the need for regulatory changes to be released via System JAR. System JAR 028 for Costpoint 7.1.1 was part of that effort.

The coding changes introduced in System JAR 028 for Costpoint 7.1.1 allowed us to disassociate payroll computation coding changes from future 7.1.1 System JAR releases. So, after System JAR 028, changes to Costpoint version 7.1.1's Compute Payroll application will not require deployment via System JAR as they did in the past. This not only means that we can deploy Costpoint 7.1.1 regulatory updates and fixes more quickly, but it will also help us keep the System JAR requirements for Calendar Year End releases as minimal as possible.

The changes we made with the noted System JARs will greatly help with that effort to minimize the System JAR requirements for future regulatory releases.
