## Framework

[Deltek Defect Tracking Number:](#)

796710

[Issues Resolved:](#)

**Description:** Framework and the following applications have been updated as part of the support for managing user groups through the active directory for users with single sign-on (SSO) authentication:

- Manage Users has been updated to allow the Manage User Groups in Active Directory feature to work with additional authentication methods. The Manage User Groups in Active Directory check box on this screen is now enabled for the following methods, in addition to Active Directory and Windows Domain and Active Directory methods that were already supported:
  - Single Sign-on
  - Single Sign-on or Active Directory
  - Single Sign-on or Database
  - Windows Domain and Database
- On the Manage User Groups screen, a new subtask (Active Directory Groups) allows you to load active directory groups from a pre-generated CSV file.

**Customers Impacted:** This change affects Costpoint users. **Workaround Before Fix:** None. **Additional Notes:** This requires the new security provider and Framework Update files, PATCH7128, and PATCH7129.
