

Deltek Costpoint HotFix Readme

Released: July 27, 2016

Enhancements

Labor Locations for Talent Management Integration

In preparation for the upcoming functionality that will allow you to export Costpoint labor locations to Deltek Talent Management, this release applies the following updates to affected Costpoint screens:

- **Manage Labor Locations/Locals (LDMLLOC)**

- The updated **Active (Applies to Talent Management and SilkRoad only)** check box now allows you to mark labor locations that are active in Deltek Talent Management. This setting was previously only available to SilkRoad Integration users.
- The screen includes new subtask, Talent Management Company ID's, where you can enter the IDs of the companies that will use a specific labor location. Use this subtask if you have multiple companies.

- **Configure Labor Settings (LDMLABOR)**

You can now select the **Use this company as the default when exporting Labor Locations** check box to signify that the company associated with this Labor Settings record is the default company to be added to Labor Locations when exporting data to Talent Management.

If there are multiple companies and a default company is not selected, a labor location will be created for each company when data is exported to Talent Management unless data exists in the Talent Management Company ID's subtask of the Manage Labor Locations/Locals screen.

- **Transfer Talent Management Data (EMPHRSDAT)**

The screen displays a disabled **Labor Locations** check box in the **Export** group box.

This feature will be included in a future Costpoint release. When this functionality is available, the **Labor Locations** check box will allow you to include Costpoint labor location data in the Transfer Talent Management Data process.

Patch Requirement

These enhancements require Costpoint 7.1.1 PATCH2972.

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application JAR
PE	EM	EMPHRSDAT	Transfer Talent Management Data	cp711_emphrsdat_006.jar
PE	LD	LDMLABOR	Configure Labor Settings	cp711_ldmlabor_004.jar
PE	LD	LDMLLOC	Manage Labor Locations/Locals	cp711_ldmlloc_001.jar

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
