[Deltek Defect Tracking Number:](#)

1016521

[Issues Resolved:](#)

Description: When you selected **Hard Edit** as the **Enrollment Rules Edit Method** on the Configure Benefit Settings screen and then you manually entered a Medical FSA election for an employee that did not have an HSA election, an error displayed when you attempted to save the record. The error message was: "An HSA and medical FSA can only be elected together if the FSA is limited purpose (used for vision and dental only)."

Customers Impacted: This defect affects Costpoint Employee Self Service users.

Workaround Before Fix: Use the following steps to save the manually entered Medical FSA election for an employee that did not elect an HSA:

1. After adding the Medical FSA election, add an HSA record with an amount and then save your changes.
2. Change the HSA amount to **0.00** and the HSA Election Type to **None** and then save your changes.

Additional Notes: This issue did not occur if you processed the Medical HSA election through the ESS Benefits Enrollment screen. A warning will display under the same conditions if you selected **Soft Edit** as the **Enrollment Rules Edit Method** on the Configure Benefit Settings screen.
