Costpoint Mobile T&E 2025.1.1	3
Appendix A: For Additional Information	4

Overview

Welcome to Deltek Costpoint Mobile Time and Expense 2025.1 Cumulative Update Release Notes. These release notes contain a summary of the following:

- Enhancements
- Software Issues Resolved

Note: The official name of the application is *Costpoint Mobile Time and Expense*. This document uses it only at the first mention. Succeeding instances of the application name display Costpoint Mobile T&E.

In addition, the application name in the *Apple App Store* and *Google Play Store* displays Costpoint Time and Expense.

Note: SSL is a term commonly used when referring to both Secure Sockets Layer technology and its successor, Transport Layer Security (TLS). Although you may see references to SSL in this guide and in the application's user interface, all Deltek applications use current TLS protocols to provide protected connections between web servers and web browsers.

Mobile Device Requirements

The Costpoint Mobile T&E application supports mobile devices that run on the following operating systems:

- Apple iOS 17 or later
- iPadOS 17 or later
- Android 12 or later

In addition, you must have the following default browsers:

- Safari for Apple iOS and iPadOS devices
- Google Chrome for Android devices

Note: For Samsung devices, you must have the default Samsung Internet browser.

Issue with Microsoft Authenticator Using Face ID for Azure on iOS Devices

If you are using Two-Factor Authentication (2FA) with Microsoft Authenticator and Face ID on iOS devices, you may be stuck when trying to approve an authentication from Microsoft Azure.

This is a known issue with the Microsoft Authenticator application, and the workaround is to use PIN instead of Face ID with the application.

Prerequisites

Attention: Information in this section does not apply to Cloud customers.

Before you begin the installation and setup of Costpoint Mobile T&E, it is important to understand the following information:

- You must install Costpoint Time & Expense and Costpoint 8.1, at the minimum.
- If you are going to access Costpoint Mobile T&E from the internet, open a port in your firewall to access the Costpoint Time & Expense virtual directory, which will be installed on the IIS server. You must use the TLS 1.2 or TLS 1.3 protocol and configure the IIS server to support "Forward Secrecy" for all deployments.
- You must install Costpoint Mobile T&E on an IIS web server. You can use an existing IIS web server or your Costpoint web server but not the embedded WebLogic web server.

Technical Considerations

You must meet the following requirements to run Costpoint Mobile T&E:

- You must install Costpoint Mobile T&E on an IIS server that is installed on Windows Server 2016, Windows Server 2019, or Windows Server 2022.
- When using Secure Sockets Layer (SSL), you must have a certificate issued by a trusted certificate authority. You must not use self-signed certificates. Wildcard certificates are acceptable if they come from a trusted certificate authority.

Note:

- The Costpoint Mobile T&E URL has the format **https://<server>/DeltekTouch/Costpoint/TE**, where **<server>** refers to the host name of your Costpoint Mobile T&E server. Including "https://" at the beginning of the URL is optional.
- To comply with the new mobile application security requirements, the feature to populate the Costpoint Mobile T&E Server URL via email when logging on to the application for the first time is no longer supported. If you attempt to use this feature, Costpoint Mobile T&E will display an "unspecified error" message and will automatically close.
- The Costpoint Mobile T&E installer installs PHP 8.3.16 in this release.

Attention: For information on installing and configuring the application, see the *Deltek Costpoint Mobile Time and Expense Technical Installation and Configuration Guide*.

Costpoint Mobile T&E 2025.1.1

This cumulative update applies to Costpoint Mobile T&E application 2025.1.1 and Costpoint Mobile T&E Server 2025.1.

Released: March 24, 2025

Enhancements

There are no enhancements in this release.

Software Issues Resolved

This section includes software issues resolved in this release.

Issue with Random UDT Values Saving Incorrectly in Timesheets

Defect 2333631

Description: When you loaded a charge to the Edit Charge screen, removed any UDT by tapping the **x** icon next to the UDT, and entered a random value (except UDT10), the value was saved to the timesheet on both Costpoint Mobile T&E and Costpoint Time and Expense (web).

Customers Impacted: This defect affects customers editing timesheet charges.

Workaround Before Fix: None.

Error Encountered During Capture Receipt

Defect 2333817

Description: When you saved a specific captured receipt, Costpoint Mobile T&E encountered the following error: "The following field does not allow more than 30 characters: undefined."

Customers Impacted: This defect affects customers attaching Uber receipts.

Workaround Before Fix: Add the expense manually and attach the receipt to the expense report.

Appendix A: For Additional Information

Deltek Support Center

The Deltek Support Center is a support website for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Deltek Customer Success analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Deltek Customer Success analyst online

Attention: For more information regarding Deltek Support Center, refer to the online help available from the website.

Access Deltek Support Center

To access the Deltek Support Center:

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

Note: If you forget your username or password, you can click the **Need Help?** button on the login screen for help.
